

AdvanTel™ Networks Nortel Overview

Moving Nortel Customers Forward with Confidence

IMPLEMENTATION SERVICES

AdvanTel Networks knowledgeable, certified professionals will design your solution to both fit your budget and future needs.

PROFESSIONAL SERVICES

Our Professional Services team has the expertise and experience to help you develop and integrate the right solutions for your organization.

NETWORK SOLUTIONS

AdvanTel Networks combines our decades of data and voice networking experience and capabilities with key strategic partnerships to deliver unsurpassed, innovative, and cost-effective solutions for our clients.

MONITORING, MAINTENANCE, AND MANAGED SERVICES

All of our products are supported by a range of maintenance and service options that ensure you get the most from your systems and services every day.

- AdvanTel Networks specializes in the integration of Nortel voice and data communications solutions into corporate environments.
- AdvanTel Networks has expertise in Nortel system upgrades, migrations, application deployments and multi-vendor interoperability including Avaya, Mitel and Cisco.
- AdvanTel Networks is certified on all the major Nortel product lines including Telephony, Unified Communications, Contact Centers and Data for both SMB and Enterprise portfolios.

“At AdvanTel, we focus on finding the most cost effective ways to apply technology toward solving business problems.”

For over 25 years, AdvanTel Networks has designed, implemented and maintained powerful converged communication networks for Fortune 100 and SMB customers worldwide.

As an Avaya Platinum SDS Partner, AdvanTel Networks delivers robust and reliable solutions, while providing professional services such as consultation, project management, and managed services.

In conjunction with Avaya’s acquisition of the Nortel Enterprise Solutions (NES) business, we have expanded our products and service offerings to include the Nortel Enterprise, voice, data and applications portfolio.

At AdvanTel, we understand your business, and we are here to help our Nortel customers move their organization to the next level. With the recent appointments of Nortel certified sales, system engineering and technical services professionals, AdvanTel has aligned itself to deliver the most advanced business communications solutions and services available, either through maintenance of your current Nortel system or seamlessly migrating your business to Avaya solutions through their integrated roadmap.
