

## Press Release

### AdvanTel, Inc. changes name to AdvanTel Networks

FOR IMMEDIATE RELEASE: April 15, 2009

San Jose, CA — Effective immediately, AdvanTel, Inc. is officially changing its name and doing business as AdvanTel Networks.

AdvanTel, Inc., a leading communications integrator in its 25<sup>th</sup> year of business, announced that it will be using AdvanTel Networks as its new business name. Changing the name to AdvanTel Networks gives recognition to the networking side of its operations, which has grown significantly in the last 10 years.

AdvanTel's main goal with the name change is to bring immediate market recognition to their name by showing the vast services they have to offer in the realm of complete communication solutions, particularly within their professional services and value-add networking applications.

Joe Twohy, Vice President of Operations at AdvanTel, further defined the change by stating, "The goal of our name change is to more accurately identify the solutions and services we have been providing to our clients for the past several years. Be it voice, data, or video, these are all applications traversing the enterprise network. Switches, routers, firewalls, wired and wireless transport devices are all part of what we work with every day. Our ability to layer relevant applications onto the enterprise network, and handle all aspects of it, is now reflected in our name."

AdvanTel Networks is growing rapidly and continues to demonstrate strong, consistent and bleeding-edge development of communications solutions and processes, while still holding true to their solid, core business practices. Roger McGibbon, President and Founder of AdvanTel noted, "We have been providing networking solutions for many years, and we will continue to provide the same high level service – We are changing our name to mirror our service offerings."
